

Clark County School District  
Second Grade Suggested 100 High-Frequency Words

*This document was printed from Document View in the CCSD Curriculum Engine and is intended to support the curriculum of the Clark County School District. Only electronic versions are controlled.*

The intent of this recommended high-frequency word list is to provide a grade-level appropriate resource for teachers. This list was developed using Fry's high-frequency word list, which identifies the most common English words in order of frequency. The word list below is not meant to be all inclusive, but rather serve as a guide for instructional planning to provide consistency in the Clark County School District. When students have mastered the list, teachers need to move on to the next set of high frequency words.

above	end	large	number	start
add	even	last	only	still
air	father	learn	other	study
along	favorite	left	own	such
also	few	letter	page	than
